

HORTI-KLOR®

HEAVY-DUTY ALKALINE CLEANER

DIRECTIONS

A composite of detergents and emulsifiers, HORTI-KLOR dislodges stubborn material such as algae, oily residues and dirt. The emulsion will not break down during rinsing, thus preventing oily residue from returning to the contact surface.

This product is a concentrate and must be diluted before use. See table below.

CLEANING APPLICATION	DILUTION RATIO
Heavy-Duty Cleaning	5.0 to 7.5 fl. oz. / gal.
Medium-Duty Cleaning	4.0 to 8.0 fl. oz. / gal.
Light-Duty Cleaning	1.5 to 4.0 fl. oz. / gal.

APPLICATION METHODS

Pressure Sprayers

High and low pressure sprayers are recommended for easy removal of debris and rinsing. Foam applicator attachments give excellent cleaning results with HORTI-KLOR.

Dip Tanks

Small items such as totes and hand tools may be effectively cleaned by immersing them in a tank filled with diluted HORTI-KLOR. This method provides extended contact time for removing stubborn deposits.

Note: Aluminum, copper and other soft metals may be cleaned with HORTI-KLOR but use-solution must be rinsed shortly after application to prevent any metal etching.

HORTICULTURAL & AGRICULTURAL APPLICATIONS

HORTI-KLOR may be used in greenhouse, nurseries, interiorscapes, botanical gardens, atriums, packing houses, commercial/retail florists, bouquet manufacturers, indoor facilities and by vegetable growers.

Areas of Use: Storage sheds, packing lines, coolers, trucks, pots, plug trays, bins, ground cover, shade cloth, benches, transportation, trucking, disposal areas, lunchrooms, washrooms, beds, structures, packing sheds, picking equipment, food-handling equipment, totes, and equipment including tools and cutters.

LIVESTOCK APPLICATIONS

HORTI-KLOR has many applications on poultry, pig, cattle and dairy farms.

Areas of Use: Animal pens, barns, parlors, drinkers, cages, receiving areas, egg rooms, kill floors, storage areas, packing equipment, farm machinery, processing areas, and for floor scrubbers and general cleaning.

HORTI-KLOR is safe to use on stainless steel, aluminum, iron, concrete, plastic, poly and glass, if rinsed prior to drying.

For detailed instructions on how to use HORTI-KLOR in your particular application, contact your Pace Representative.

Detailed instructions for the use of HORTI-KLOR are also available online at Pace49.com.

FOR USE IN FOOD PLANTS: Food contact items are to be rinsed with potable water before re-use.

PRODUCT OF USA
