

KleenGrow

Meeting Areas, Offices, Eating Areas, Break Rooms, and Restrooms

Meeting Areas, Offices, Eating Areas, Break rooms, and Restrooms

Perform this procedure after each Meal, Break, or Meeting

Step 1

Remove all scrap material from floor and tables, sweep floor and waste material to disposal area. If the surfaces are soiled, a precleaning (**Step 2**) should be completed prior to **KleenGrow** application.

Step 2

Cleaner Rate: Dilute Horti-Klor 2.5oz/gal

Using Horti-Klor or other detergent soap, scrub all, spray, wipe, or brush all tables, equipment, and food contact surfaces.

Step 3

Allow cleaner to stand for 30 seconds then wipe all skin contact areas with disposable towels. Mop floor area and let dry.

Step 4

Disinfectant Rate: Dilute KleenGrow 2oz/gal

Using a trigger sprayer and **KleenGrow** spray all tables, food contact surfaces, and into the air. Wipe all surfaces with disposable towels.

Food Contact Area: After spraying the **KleenGrow** solution on all surfaces of packing and processing equipment where food comes in contact with the surface WIPE or Spray RINSE **KleenGrow** treated area with portable water.

Restrooms

Perform this procedure twice per day.

Step 1

Remove all scrap material from washrooms, sweep all waste material to disposal area.

Step 2

Cleaner Rate: Dilute Horti-Klor 2.5oz/gal

Using **Horti-Klor** or other detergent soap, scrub all counters, sinks, and toilets with brushes. Let product sit for 3 to 5 minutes and rinse with potable water. After scrubbing all surfaces, mop floor and let dry.

Step 3

Disinfectant Rate: Dilute KleenGrow 2oz/gal

Using a trigger sprayer, Spray **KleenGrow** on all counters, sinks, toilets, and into the air. Wipe all surfaces with disposable towels.

Step 4

Disinfectant Rate: Dilute KleenGrow 2oz/gal

Add **KleenGrow** solution to mop buckets, place mop in solution until next use.

After spraying the **KleenGrow** solution on all surfaces DO NOT RINSE. Allow to air dry or use a clean rag, wipe off excess.

** Always label mixed solutions*

KleenGrow

Vehicles, Transport Trucks, Trailers, Shipping Containers, Shipping & Receiving Areas

Vehicles, Transport Trucks, Trailers, Shipping Containers

Perform this procedure once daily on all interior surfaces.

Step 1

Remove all scrap material trailer, shipping container or vehicle to disposal area. If the surfaces are soiled, a pre-cleaning (**Step 2**) should be completed prior to **KleenGrow** application.

Step 2

RATE: Dilutes 2.5oz/gal of Horti-Klor with water

Spray, wipe, or brush all surfaces thoroughly.

Step 3

Allow cleaner to stand for 30 seconds then rinse.

Step 4

Disinfectant Rate : Dilute KleenGrow 2oz/gal

Spray KleenGrow solution on all hard surfaces, do not rinse.

For trailers: Using a hand-held compressed air assisted mister, and standing 5 ft. away from wall opposite the door, spray the air allowing the product to fall on all surfaces. Finely mist all walls, floors, and ceiling while backing out of the trailer. If using an automatic mister, place in center of truck and close truck door. Turn on air for 5 seconds. A fine mist will circulate throughout the truck. Wait 5 seconds, then open truck door.
Do Not Rinse.

Wash all interior areas using foam generator with solution of Horti-Klor at a dilution of 2.5oz/gal of water, once per day

Shipping & Receiving Areas

These procedures should be daily.

Step 1

Remove all shipping material from areas around receiving and put in designated area.

Step 2

Sweep floor areas and remove all scrap and debris to garbage containers outside of the building.

Step 3

RATE: Dilutes 2.5oz/gal of Horti-Klor with water

Using a floor machine or foam generator, scrub or foam all loading docks, floors, walls, and equipment.

Step 4

Let sit for 3 to 5 minutes. Rinse to drain.

Step 5

Disinfectant Rate : Dilute KleenGrow 2oz/gal

Using a pump sprayer with **KleenGrow** solution spray all pallet jacks, forklift tires and equipment . Do Not Rinse **KleenGrow**.

** Always label mixed solutions*
