

HORTI-KLOR

HEAVY-DUTY ALKALINE CLEANER

DIRECTIONS

Horti-Klor contributes 450 ppm of active chlorine when used at a rate of 2.5 fl. oz. per gallon of water.

A composite of detergents and emulsifiers, Horti-Klor dislodges stubborn material such as algae, oily residues and dirt. The emulsion will not break down during rinsing, thus preventing oily residue from returning to the contact surface.

This product is a concentrate and must be diluted before use. See table below.

Cleaning Application	Horti-Klor / Water (fl. oz / gal)
Heavy-Duty Cleaning	5.0 to 7.5
Medium-Duty Cleaning	4.0 to 8.0
Light-Duty Cleaning	1.5 to 4.0

APPLICATION METHODS

Horti-Klor produces a high foam when used with a foam applicator. Foam is an effective way to clean heavily soiled areas providing a residual soaking action on both vertical and horizontal surfaces.

Pressure Sprayers

High and low pressure sprayers are recommended for easy removal of debris and rinsing. Foam applicator attachments give excellent cleaning results with Horti-Klor.

Dip Tanks

Small items such as totes and hand tools may be effectively cleaned by immersing them in a tank filled with diluted Horti-Klor. This method provides extended contact time for removing stubborn deposits.

Note: Aluminum, copper and other soft metals may be cleaned with Horti-Klor but use-solution must be rinsed shortly after application to prevent any metal etching.

Horticultural Applications

Horti-Klor may be used in greenhouse, nurseries, interiorscapes, botanical gardens, atriums, packing houses, commercial/retail florists, bouquet manufacturers and by vegetable growers.

Areas of Use: storage sheds, packing lines, coolers, trucks, pots, plug trays, bins, ground cover, shade cloth, benches, transportation, trucking, disposal areas, lunchrooms, washrooms, beds, structures, packing sheds, picking equipment, food-handling equipment, totes, and equipment including tools and cutters.

Livestock Applications

Horti-Klor has many applications on poultry, pig, cattle and dairy farms.

Areas of Use: animal pens, barns, parlors, drinkers, cages, receiving areas, egg rooms, kill floors, storage areas, packing equipment, processing areas and for general cleaning.

For detailed instructions on how to use Clean-Up in your particular application, contact your Pace Representative. Detailed instructions for the use of Clean-Up are also available online at Pace49.com.

WARNING: This product contains chemicals known to the state of California to cause cancer, or birth defects or other reproductive harm. See Section 15 of the SDS for additional information.

Horti-Klor is safe to use on stainless steel, aluminum, iron, concrete, plastic, poly and glass, if rinsed prior to drying.

Keep Out Of Reach Of Children
