

# HORTI-KLOR®

## HEAVY-DUTY ALKALINE CLEANER

### DIRECTIONS

Horti-Klor contributes 450 ppm of active chlorine when used at a rate of 2.5 fl. oz. per gallon of water.

A composite of detergents and emulsifiers, Horti-Klor dislodges stubborn material such as algae, oily residues and dirt. The emulsion will not break down during rinsing, thus preventing oily residue from returning to the contact surface.

**This product is a concentrate and must be diluted before use. See table below.**

Cleaning Application	Horti-Klor / Water (fl. oz / gal)
Heavy-Duty Cleaning	5.0 to 7.5
Medium-Duty Cleaning	4.0 to 8.0
Light-Duty Cleaning	1.5 to 4.0

### APPLICATION METHODS

Horti-Klor produces a high foam when used with a foam applicator. Foam is an effective way to clean heavily soiled areas providing a residual soaking action on both vertical and horizontal surfaces.

#### Pressure Sprayers

High and low pressure sprayers are recommended for easy removal of debris and rinsing. Foam applicator attachments give excellent cleaning results with Horti-Klor.

#### Dip Tanks

Small items such as totes and hand tools may be effectively cleaned by immersing them in a tank filled with diluted Horti-Klor. This method provides extended contact time for removing stubborn deposits.

**Note:** Aluminum, copper and other soft metals may be cleaned with Horti-Klor but use-solution must be rinsed shortly after application to prevent any metal etching.

#### Horticultural Applications

Horti-Klor may be used in greenhouse, nurseries, interiorscapes, botanical gardens, atriums, packing houses, commercial/retail florists, bouquet manufacturers and by vegetable growers.

**Areas of Use:** storage sheds, packing lines, coolers, trucks, pots, plug trays, bins, ground cover, shade cloth, benches, transportation, trucking, disposal areas, lunchrooms, washrooms, beds, structures, packing sheds, picking equipment, food-handling equipment, totes, and equipment including tools and cutters.

#### Livestock Applications

Horti-Klor has many applications on poultry, pig, cattle and dairy farms.

**Areas of Use:** animal pens, barns, parlors, drinkers, cages, receiving areas, egg rooms, kill floors, storage areas, packing equipment, processing areas and for general cleaning.

For detailed instructions on how to use **Horti-Klor** in your particular application, contact your Pace Representative.

**Detailed cleaning procedures can also be obtained by logging onto our website, [www.pace49.com](http://www.pace49.com).**

**WARNING:** This product contains chemicals known to the state of California to cause cancer, or birth defects or other reproductive harm. See Section 15 of the SDS for additional information.

Horti-Klor is safe to use on stainless steel, aluminum, iron, concrete, plastic, poly and glass, if rinsed prior to drying.

### Keep Out Of Reach Of Children
